

SETTING UP CYTOPOINT™ IN YOUR IMPROMED® SOFTWARE

VetSupport www.vetsupport.com

1. First, set up the inventory and product codes for each size vial, using the same 4 steps as setting up CONVENIA®(cefovecin sodium) (on reverse).

2. Now you will create a Bundle Code

Click the icon in the top left corner on the home screen

Setup

Products

Product Attachments

Set up a bundle for each weight range
provided on the CYTOPOINT chart

For each weight
range, make sure
you associate the
respective vials
and number of
vials

Make sure you
choose them as
fixed values so the
staff cannot
accidentally change
the quantity
